

Transmate

1-800-426-9341

82000 HPU Hydraulic Power Unit

Material Specifications

- Weighs approximately 200 lbs
- 14 h.p. Kohler gasoline engine
- Hydraulic pump delivering 8 gpm to 2,000 psi
- 5 gallon hydraulic fluid reservoir
- 12V electric air-to-oil heat exchanger

Benefits to Users:

- Full duty cycle hydraulic power system
- Able to run most hydraulic tools that require 7-9 gpm to 2,000 psi
- Electric start with recoil start backup
- By-pass valve for cold weather starting or to switch out tools while system is running
