

ROMAC INDUSTRIES, INC.

470 SERIES PIPE RESTRAINER

SUBMITTAL INFORMATION

USE The Romac 470 Style Restraint System is used for the restraint of PVC pipe to mechanical joint fittings, bell & spigot PVC pipe joints and bolted sleeve type couplings used on PVC pipe. The 470 Style Restraint replaces the need for costly concrete thrust blocking.

MATERIALS

Retainer Body ASTM A 36 Steel Plate.

Bolts and Nuts High strength low alloy steel bolts and nuts. Steel meets AWWA Standard C111. Type 304 Stainless Steel bolt material optional.

Coatings Romac shop coat, fusion bonded epoxy (exterior only) available on request.

Pressure When properly installed on PVC pipe the Romac Style 470 Restraint System may be used up to the pressure rating of the pipe and 2:1 test.

SIZES 14 through 30 inch.
